DOUBT AND DARKNESS.

Chinese Muddle Sinks Deeper Into the Gloom of Uncertainty.

BREAK IN DIPLOMATIC RELATIONS.

Russian Bear Won't Play In the Dragon's Back Yard Because the Dragon Wouldn't Sign the Warranty Deed for Manchuria.

Washington, April 8. — Wu Ting Fang, the Chinese minister, was an early caller at the state department to seek information as to the report, based on advices to the state department, that there had been an interruption of diplomatic intercourse between Russia and China. Mr. Wu had not been advised of any such development and the information before the state department was so contradictory that it did not permit any clear explanation of the real state of affairs.

Some doubt arises from the fact that Mr. Rockhill's latest dispatch does not mention any such disarrangements, and the officials feel bound to accept this as a pretty strong evidence that prior intimations of discord have not taken actual form. Yet the dispatch received from Mr. Squires, the American charge d'affaires in the absence of Minister Conger, appear to have been quite explicit that the difficulty already had made itself manifest. It is thought possible at the state department that the circumstances to which Mr. Squires refers occurred prior to the receipt in Peking of the last Russian note and that the trouble may have been adjusted subsequently.

The state department maintains an attitude of doubt and expectancy, and is not yet prepared to admit that there has been an interruption of intercourse between the two countries, either limited or complete. Aside from the telegraphic advices, there are some attending circumstances which indicate that at least some strain or partial interruption of intercourse has occurred. The fact developed in Washington about a week ago that Russia had delivered to China what amounted to an ultimatum on the signing of the Manchurian agreement. This followed the usual course of ultimatums and fixed a definite limit of days within which China could act. It also conveyed the clear intimation that unfavorable action by China would lead to a severance of diplomatic relations between the two countries. The limit of time fixed is believed to have been one week and to have expired last Wednesday. China did not sign within the time limit, and the next day Russia addressed her note to the powers which has been accepted as removing the pressure over the Manchurian agreement. This at first seemed to be a waiver of her prior intimation of an interruption of diplomatic intercourse, and yet there was no such explicit waiver, and the latest advices from Peking reporting that an interruption has now actually occurred seem to be directly in line with the threat previously conveyed.

In case there proves to be an interruption of the relations between Russia and China, it is not expected to disarrange the negotiations between the powers and China or between Russia and the powers. It probably would be confined to a termination of the close entente long maintained between Russia and China.

A brief dispatch was received from General Chaffee, but beyond the record of a casualty to a private soldier its contents are withheld from the public. It is believed that the unpublished portion of the dispatch refers to the declaration of the other foreign military commanders to reduce the number of fortified posts and the strength of the garrisons between Peking and the sea to the proportions suggested by General Chaffee under direction of this government.

CHINESE REBELLION.

Mongolians Attempt to Overthrow the Dynasty.

Peking April 8. — Rumors current during the past few days of the outbreak of a rebellion headed by General Tung Fu Sian, the former commander of the northern army in the provinces of Mongolia and Shensi, have been absolutely authenticated.

Unofficial Chinamen of intelligence regard the rising as most unfortunate at this time to the interests of China and as possibly meaning use of foreign troops to protect the court itself.

Li Hung Chang and Prince Ching have received information on the subject, which, though indefinite, still proves that the court is seriously alarmed over the situation.

General Fu Sian was, according to last accounts, about 150 miles from the court with 11,000 regular troops, all supposed to be devoted to himself. The court has about the same number

of soldiers at Sian Fu, but it is probable that the troops of Tung Fu Sian are better drilled and better armed.

It is believed that the Mongolian rebellion was brought about through agents of Prince Tuan and General Tung Fu Sian. Li Hung Chang thinks there are about 5,000 regular troops in Mongolia, and inclines to the belief that they have not joined in the rebellion. He does not think there is any danger to the court, and thinks the object of Prince Tuan, who was reported at Ning Hsu with 10,000 men prepared to resist arrest, and General Tung Fu Sian is to create a diversion of interest in order to force unconditional protection to themselves.

The ministers of the powers do not think that, provided foreign interests do not suffer, any interference is likely. If the dynasty should be overthrown it would, to a certain extent, delay the peace negotiations; but they consider that a regime not bound by traditions like those of the present court would probably be much easier to deal with eventually, as the ceremonial would be much curtailed.

Prince Ching, who, as a relative, may be considered to take the court view of the situation, thinks the rebellion is a storm in a teacup. He says the present court is loved and esteemed by nine-tenths of the population of China and that the same proportion of able-bodied men in China would rise to protect the existing dynasty. The empress dowager, as the adviser of the emperor, hold a place in the affections of the people not dreamed of and not understood by foreigners. Her slightest wish is the emperor's law, though he is by no means the figurehead the foreign powers frequently suppose. The emperor recognizes her ability, invaluable aid and wise advice.

Gratifying to Japan.

Yokohama, April 8. — The news of Russia's decision not to press the Manchurian agreement was received here with a feeling of relief. In anticipation of complications that might ensue had Russia reached another conclusion the government had resolved to postpone a number of important state undertakings, involving large expenditures of money.

AS ASSAULTS ABROAD.

Plot to Take President Loubet's Life Reported to Authorities.

Paris, April 8. — French detectives were privately informed of a projected attempt to assassinate President Loubet during his coming trip.

Extraordinary precautions have been taken everywhere, and the usual police protection has been doubled. Outsiders have been excluded from the railroad stations, and 10,000 soldiers have been detailed to preserve order during the French president's stay at Nice, where strict orders have been issued to rigorously suppress the slightest hostile demonstration.

President Loubet is inclined to laugh at the fears that an attempt will be made on his life.

Loubet at Nice.

Nice, April 8. — President Loubet's arrival here was signaled by a salute of 100 guns and by the hearty plaudits of great crowds of enthusiastic sightseers. He drove to the prefecture in an open landau drawn by six horses and escorted by gendarmes and cuirassiers. The streets were lined with troops and dotted with triumphal arches. The buildings were festooned with flowers, decorated with flags and crowded with people, who greeted the president with alternate shouts of "Vive Loubet!" and "Vive la Republique!" The official receptions at the prefecture were numerous attended.

Boers Won't Quit.

London, April 8. — The Pretoria correspondent of The Morning Post, who warns his countrymen against hoping for an early termination of hostilities or believing the stories that the Boers are tired of war, says: "It becomes daily more evident that the Boers intend to fight to a finish. Many are surrendering, but they are men of no standing. The real fighting men are still on commando, and although the recently successful British operations tend to bring the end nearer, it is evident that the Boers must be completely crushed before a general surrender is probable."

Russian Students Arrested.

St. Petersburg, April 8. — The police at Kharkoff arrested 21 students for rioting at the railroad station on the occasion of the departure of other students who were expelled for being connected with previous disturbances at Kharkoff. Several students were arrested in St. Petersburg while leaving a theater, where they manifested particular approval of certain passages of a drama which seemed to refer to existing political conditions.

Despondent Woman's Deed.

Columbus, O., April 8. — Mrs. Jane Becker, 66, drowned herself in the cistern at her home on account of despondency caused by ill health.

NATIVES IN THE NAVY

Filipinos to Serve on Vessels Used Exclusively in the Islands.

CLIMATE DEBILITATES WHITE MEN.

Trained Men Can Easily Be Obtained As Filipino Youths Have Been Drilled in a Nautical School. Foreigners in Naval Service.

Washington, April 8. — Instructions have been cabled by Secretary Long to Rear Admiral Remy, commanding the Asiatic station, authorizing him to enlist 500 natives of the Philippines for service on board the former Spanish gunboats and other small vessels which are to be maintained exclusively in the Philippines. These men will form the nucleus of an important service composed wholly of enlisted men. Rear Admiral Crowninshield, chief of the bureau of navigation, believes that, besides resulting in efficient service, the employment of natives will spread respect for the American flag and create a strong feeling of loyalty.

Reports received from Rear Admiral Remy have shown that Americans, especially those serving in the fire-rooms, become quickly debilitated, and it is necessary to send them to the United States or to Japan to recuperate. It is believed that the health of Filipinos will not suffer, because they are acclimated, and if they do become ill it will be an easy matter for them to recover in the Philippines.

No difficulty will be experienced in obtaining trained men. During the fall of 1899 Lieutenant J. V. Colman, now in charge of the enlisted men's branch of the bureau of navigation, opened the "Escuela nautical," or nautical school, to train Filipino youths to carry on their interior commerce. Good results have been obtained therefrom.

There is no law specifically authorizing the enlistment of Filipinos, but it is pointed out that whether the supreme court adjudges the natives foreigners or citizens, it will make no difference in this case, as almost one-fifth of the enlisted men of the navy are of foreign nationality.

The Two Rice Mills.

New York, April 8. — The two wills signed William Marsh Rice were on the calendar before Surrogate Fitzgerald for the setting of dates for the trials in the contests. Counsel for Albert T. Patrick, the Rice heirs, and the Rice institute in Texas, and for the temporary administrator of the estate were in court. Counsel for Patrick and the Rice heirs asked for an adjournment until June. Counsel for the temporary administrator asked that the case be put on at once for trial. Surrogate Fitzgerald adjourned the hearing until next Monday, or until the close of the proceedings against Patrick before Justice Jerome on the murder charge.

Scorpion Has Sailed.

Washington, April 8. — The navy department received a cablegram from Commander Sargent of the Scorpion announcing the departure of that vessel from La Guayra for San Juan. Although no mention was made in the dispatch of Minister Loomis, it is understood that he is aboard the Scorpion and will be transferred at San Juan to a merchant steamer for conveyance to the United States. The minister will arrive at San Juan Wednesday evening or Thursday morning and if he meets a steamer there should be in New York April 18.

Not Speedy Enough.

Washington, April 8. — Secretary Long was informed that the torpedo boat Perry built by the Union iron works of San Francisco failed to meet contract speed requirements on her recent official trial. Under the contract the vessel was required to develop a speed of 29 knots an hour, but the best she could do on her trial run was 28.2 knots per hour. The action of the department has not yet been determined, but the vessel will probably be accepted subject to a slight deduction from the contract price.

Carter Wants Out.

Washington, April 8. — Attorneys for Captain Oberlin M. Carter, now serving a sentence in the Leavenworth, Kan., penitentiary for defrauding the government, have filed an application in the supreme court for the release of their client on bail pending a hearing before that court on his appeal from the judgment of the lower court refusing him a writ of habeas corpus. The application will be contested by Solicitor General Richards of the department of justice.

Washington, April 8. — The president appointed John W. Cable to be naval officer of customs in the district of Baltimore, Md.; Henry S. Matthewson to be passed assistant surgeon in the marine hospital service, and several minor appointments for the navy.

CAPTURED A COUNT.

And the Count Captured an American Girl With Money.

Allentown, Pa., March 8. — The romantic story of the courtship of Miss Marie Satterfield, daughter of Mrs. John Satterfield of Buffalo, and Franz Josef, Count von Larish of Austria, has become known through friends of the couple. The prospective bride, who has just reached her majority, met her future husband a year ago while touring the continent. The count, who is 22, came to America several months ago, proposed marriage and was accepted. The empress of Austria is his aunt, and when he was baptized the emperor stood as his sponsor, became his godfather and gave him his name. Miss Satterfield and the count are visiting here.

Prince Heinrich, one of the many Austrian princes and a close friend of the count, is expected in New York Wednesday, and the formal announcement will then be made.

Miss Satterfield's father, who was connected with the Standard Oil company, died suddenly in Europe a few years ago and left the countess, who is his only daughter, an independent fortune which he accumulated.

JERSEY CENTRAL CRISIS.

Brotherhood Chiefs Withdraw Without Effecting a Settlement.

New York, April 8. — Neither employers nor employees have made decisive movements in the wage dispute that may terminate with a strike on the Central Railroad of New Jersey. It is expected the men will confer within 24 hours and by vote agree upon plan of action.

It is difficult to take the measure of the sentiment of the moving army of men that a railway system employs, but as far as it can be sounded on the Central, the men seemed moved by a spirit of conservatism and to be inclined to refrain from striking until every resource of conference and arbitration has been exhausted.

The withdrawal from the city of the chiefs of the brotherhoods of railway men after an unsuccessful attempt to secure a conference with the officials of the railroad restores the dispute directly between the company and men.

Train Derailed.

Kansas City, April 8. — By the derailing of an engine and a number of freight cars being brought into the city on the Kansas City suburban belt line railroad, four members of the crew were injured, one fatally. William Prime, brakeman, sustained a broken skull, and will die. The train was derailed a mile from the center of the city while running at the rate of 25 miles an hour. The engine was demolished and 10 cars reduced to kindling wood.

Were Floating a New Deal.

Edinburgh, April 8. — Robert and Walter Pattison, who were managing directors of the Pattison whisky firm, which failed in 1898 with a deficiency of £80,000, were arrested in connection with the flotation of a company. The arrests promise to revive the sensation that followed the failure of the whisky firm, which ruined a number of small firms.

Federal Steel Directorate

New York, April 8. — At the annual meeting of the Federal Steel company the following directors were elected: C. M. Schwab, E. H. Gary, Samuel Spencer, Charles MacVeagh and Robert Bacon. At the meeting of the directors Saturday the number of board was reduced to five.

Decree For Gas Company.

Chicago, April 8. — The appellate court reversed Judge Dunne's previous order and dissolved the injunction restraining the Peoples Gaslight and Coke company from collecting more than 72 cents per 1,000 cubic feet on fuel gas in Hyde Park.

New Incorporations.

Columbus, O., April 8. — Euclid Land company, Cleveland, \$75,000; Citizens' Special police, Cleveland, \$3,000; Champion Mutual Aid society, Hamilton; Colonial Match company, Akron, \$200,000.

Shot From Ambush

Wilsendale, W. Va., April 8. — Henry Marcum, a well-to-do farmer of this county, was fatally shot from ambush. The assassin is unknown.

Tried to Sneak In.

Malone, N. Y., April 8. — A party of 29 Chinamen was arrested on the Canadian line, north of Malone, trying to enter the United States.

Only One Saved.

Portland, Me., April 8. — The St. John schooner Wendall Burpee went ashore on the cape, and the mate only was saved.

Death of S. P. Walcott.

Kent, O., April 8. — S. P. Walcott, member of the board of managers of the Ohio reformatory, died at Mansfield. His remains were brought to his home here for burial.

HOME FOR AGUINALDO.

He May Be Removed to a House in the Fashionable Part of Manila.

HAS NOT YET SIGNED HIS MANIFESTO

Claimed That He Is Loth to Comply With This Requirement—Filipinos Said to Distrust Him and Want Him Punished.

Manilla, April 8. — General MacArthur says it is impossible to make a statement concerning Aguinaldo at this time. It is possible that Aguinaldo will soon be removed from the Malacan palace to a large house with pleasant grounds on General Solano street, a fashionable quarter of the city beside the Pasig river, which is being prepared and renovated for occupancy. Aguinaldo is purchasing diamonds and other jewelry. He continues to receive certain visitors, but newspaper correspondents are excluded from his presence.

It is said that the manifesto which Aguinaldo has been preparing has not yet been signed, and it is added that he is reluctant to comply with the condition.

It appears that the majority of the Filipinos in Manila distrust Aguinaldo and dislike to see him accorded special favors. They say he ought to be severely punished.

General Sandico, a former member of Aguinaldo's cabinet, has surrendered to the American authorities at Cabauna, in the province of New Ecija. He has a bad record and may be tried.

The trial of M. Brix Hoeltermann, the Belgian, who was connected with the Philippine Trading company, and whose arrest on the charge of furnishing supplies to the natives was announced Feb. 19, has been completed. The evidence of the Filipino colonel, Herrera, who recently surrendered, clinched the prosecution. The colonel testified that Hoeltermann had furnished money and rice supplies to the insurgents at various times.

A Negro's Confession.

Memphis, April 8. — A negro giving the name of Levi Charles, and claiming to be the desperado who killed Captain John T. Day and caused the death of 10 other persons and the wounding of 30 men, women and children at New Orleans, from July 24 to July 27, 1900, lies at the point of death in a pesthouse at Clarksdale, Miss. The negro said that his right name is Levi Charles, and that he had killed a woman and two policemen at New Orleans. He says he escaped from that city and made his way to Mississippi, where he assumed the name of George Peters. The negro says that he has killed seven persons.

Plunge of a Frightened Horse.

Milwaukee, April 8. — Mrs. Michael Chart and her 7-year-old daughter Mary were drowned in the Kinnikinnick river at the Kinnikinnick bridge, which was open for repairs. Mrs. Chart, her husband and daughter, were in a buggy drawn by a nervous horse, which, becoming frightened, ran away and plunged through the open bridge into the river, dragging the buggy and its occupants with it. Mr. Chart was saved, a policeman throwing a rope to him, but the mother and daughter were caught by the buggy top, carried to the bottom of the river and drowned. The bodies were recovered.

Strong Box Wrecked.

Frankfort, Ind., April 8. — Burglars at Michigan Towne, east of this city, wrecked the safe in a brick building occupied by C. A. Marshall, a merchant, and after a desperate running battle with citizens, in which Marshall was slightly wounded and one of the robbers probably fatally shot, escaped with a small amount of booty. The big steel vault was blown out and across the room, and a drawer containing a package of bank bills was blown in an opposite direction and the bills torn into a thousand pieces. The property damage to the safe, building and goods will probably reach \$3,000.

Rio Janeiro's Population.

Washington, April 8. — A wide discrepancy between the population figures given by the statistical authorities of the Rio Janeiro and by the sanitary authorities there is called to the attention of the marine hospital service in the annual report of Acting Assistant Surgeon Havelburg at that port. He says the sanitary authorities make the present population of Rio Janeiro 792,000, while the statistical authorities make it 421,716. The impression prevails that Rio Janeiro has a larger population than that shown by the census, but not so large as estimated by the sanitary authorities.

St. Petersburg, April 8. — Import duties for Vladivostok have been raised on all American iron, steel and machinery.

A GREAT EMPIRE STATE.

Texas has become the Empire State of the South, having nearly a million more inhabitants than Georgia, which has heretofore had that proud title. It has a greater population than all the New England States combined, exclusive of Massachusetts. Its growth in wealth is no less marvelous than its growth in population. The discovery and development of its oil fields, the vast production of cotton, the extent and constant increase in railroad mileage mark it as one of the greatest and most progressive States in the Union and the States and Territories adjacent to it seem to be sharing its prosperity.

In an article in the Manufacturers' Record, Mr. D. Allen Wiley gives a list of railroads which have been planned and are likely to be built in the Southwest, including Texas, Arkansas, Oklahoma and Indian Territory. These proposed roads have a mileage of over 5,000. So much railroad construction indicates great business activity in that part of the Union, besides abundant prosperity and confidence in the future.

Under the terms of the resolution of Congress admitting Texas into the Union the right to divide the State into five States was accorded. The time will come when Texas can be carved into five great States. At the present time, if it were equally divided according to population, it would make five States each having a population of over 600,000 and each one being greater in population than any of the fifteen of the smaller States in the Union. In its area Texas is even more imposing than in its wealth and progress. It is larger than any part of Europe, except Russia. With a population of 50,000,000 Texas would not be as thickly peopled as Germany was in 1880. Reasonably well cultivated Texas could produce enough breadstuffs to feed the population of the United States and could raise the world's supply of cotton, besides leaving a pasture field as large as the State of New York. If it were divided into five equal States each State would be nearly as large as New England or as large as the States of New York and Connecticut combined. From these figures it is apparent that Texas is entitled to the distinction of being called an Empire State.

Almost without dissent, the Boards of Control of Centre College and of Central University and the Boards of Directors of the Louisville Theological Seminary and of the Danville Seminary have voted to articles of consolidation for the two collegiate institutions and the two seminaries. The articles were drawn by Col. Thomas W. Bullitt, Col. W. C. P. Breckinridge, A. P. Humphrey, E. W. C. Humphrey and R. P. Jacobs. The Synods of Kentucky will meet in Louisville April 23 to ratify or reject the action. However, the fact that those who have voted for the consolidation are the leaders in their respective synods causes the probability of rejection to be almost wholly out of the question. The final decision as to the union of the seminaries will be reported from the synods to the general assemblies of the church. The name of the university will be Central University. It will be located in Danville. The consolidated seminaries will be in Louisville.

Harrowgate.

[Aberdeen Gretna Green.]

The name of the famous Blue Lick, which flows pure, sparkling and bubbling, on the beautiful farm of Dr. A. N. Ellis, three miles above Aberdeen. Harrowgate is the name of Ellis's celebrated Blue Lick Spring, whose medicinal qualities are unsurpassed and whose analysis is identical with the Harrowgate Spring of Dr. Ellis.

The Harrowgate, as a laxative and for stomach and kidney troubles, is at the head of the list of medicinal waters. The following is what it is especially noted for and for which the highest testimonials are given: As a laxative it has no superior, acting gently and pleasantly. For the stomach it is a sure cure of all troubles arising from indigestion. The following well-known gentlemen say that it has been of incalculable benefit to them for constipation and stomach trouble: W. G. Hutsell, the well-known meat dealer; O. B. Spears, the coal merchant and Cal Kennedy, proprietor of the Mineral Well House, and numerous others. In conclusion, we will say this is not a paid-for article, but a voluntary contribution to the great worth of the Harrowgate Blue Lick water.

"WATERING" STOCK.

A New Jersey Judge Denounces the Trust System.

His Action May Puncture the Steel Combine Bubble—Many Others Interested.

[Philadelphia North American.]

By a decision just given by the New Jersey Court of Errors and Appeals, the highest in the State, a blow has been struck at the entire system of trust incorporation in that State. The ruling in effect forbids absolutely the watering of stock, and even the tyro in financial affairs will realize how serious a drawback this will be to the manipulators of industrial securities. No more important or sweeping decision has been made in years.

Of startling interest is the status of the United States steel corporation, the gigantic billion-dollar syndicate headed by J. P. Morgan & Co., which bought out Andrew Carnegie and consolidated seven other companies, forming a trust which absolutely controls the steel and iron business of the United States, threatening even the existence of similar concerns abroad.

It is impossible to say, until the whole situation has been gone into carefully by skilled lawyers, and finally brought before the courts, whether the decision will not mean the collapse of the great steel bubble. An eminent authority said:

"It will require special study to determine how far this decision applies to the Morgan syndicate. But, at least there is enough in it to add a few gray hairs to some of the Wall street manipulators."

The case which may be a precedent of such sweeping effect is the suit of minority stockholders in the American Smelting Company, who sought an injunction to restrain their directors from purchasing the plants of M. Guggenheim's Sons, alleging that the purchase was to be made with stock which was from 30 to 40 per cent. water, and that the property purchased was not worth more than one-third of the value placed upon it by the Smelting Company's directors.

In spite of the intricate technical nature of the case, its bearing becomes obvious with a little explanation. When the directors of a corporation, or of several corporations, decide to consolidate several concerns, the usual course is to form a new company and issue an amount of stock sufficient to cover the estimated value of all the concerns, with the addition of as many millions as the promoters feel they are entitled to. By having previously quietly obtained a voting majority of the stock in these subsidiary corporations, they are enabled to have the deal authorized, and minority stockholders have no voice in the matter. The capitalists decide how much of the new stock shall be paid to holders of stock in the smaller companies, and the balance is held in the treasury or divided as profits on the consolidation.

No proof is needed that the stock of these great corporations consists of water to an extent varying from 10 to 30 per cent. It is merely necessary to mention that the United States Steel Corporation stock is selling on the curb at 40 to 80.

Messrs. Gordon and John Asbury, of the Fern Leaf neighborhood, had forty sheep killed and fifteen wounded a few nights ago by a lot of worthless dogs. A neighbor, Mr. D. A. French, also had three sheep killed by the curs.

Perhaps your watch don't keep time—runs too fast or too slow or may be it stops. Bring it to us, and no matter what is the trouble we will make it keep time to perfection and not charge you any more than others who are not competent to do first-class work if they wished.

BALLENGER, jeweler and optician.

Mr. Charles Kreutz, who lives on Mr. J. B. Burgess' farm near Fern Leaf, had a dog to go mad about three weeks ago. The rabid canine bit several other dogs in the neighborhood and also bit several head of live stock belonging to Mr. Kreutz, and Mr. Kreutz was himself bitten on the wrist before the dog was finally shot. Last Saturday a two-year-old steer and two hogs belonging to Mr. Kreutz were seized with hydrophobia and had to be shot. All the dogs that were bitten, so far as known, have been killed. Mr. Kreutz has been under treatment by a Maysville physician for the wound on his hand.

Holds Up a Congressman.

"At the end of the last campaign," writes Champ Clark, Missouri's brilliant Congressman, "from overwork, nervous tension, loss of sleep and constant speaking I had about utterly collapsed. It seemed that all the organs in my body were out of order, but three bottles of Electric Bitters made me all right. It's the best all round medicine ever sold over a druggist's counter." Overworked, run down men and weak, sickly women gain splendid health and vitality from Electric Bitters. Try them. Only 50c. Guaranteed by J. Jas. Wood & Son, druggists.

OH, MY! OH, MY!

Those Ex Democrats Over in Lewis Get it Where the Chicken Got the Hatch-t.

VANCEBURG, KY., April 7.—The Republicans had the hottest primary election here yesterday ever held in Lewis County, and there were some surprises over the result.

Joseph Lee defeated W. B. Pugh for the nomination for County Judge. U. C. Thoroughman defeated W. C. Halbert for County Attorney. O. P. Pollitt won over J. C. Willim for County Clerk. Roch Henderson defeated T. M. Gaines for Superintendent of Schools. T. M. Bowman defeated T. M. Cooper for Sheriff. David Smith was nominated for Assessor. C. L. Tannian was nominated for Jailor and R. C. Hanna was nominated for Representative.

There was at least \$10,000 spent for votes and whisky. There were four former Democrats seeking nominations and all were defeated.

The result has left the party in bad condition, owing to the bitter fight made and the methods used.

The BULLETIN learns from a reliable source that one of the defeated candidates came down to Maysville Thursday or Friday, and took back with him all the one and two dollar bills he could rake and scrape together in this city.

The Passing of Easter

Reminds us that time is on the wing, and with its passing have gone and been numbered among the things beyond the flood, many golden opportunities which, had they been embraced when offered, might have brought enduring fame, great fortune or lasting good, and, may be, all these; but alas! unalterable fate decrees that opportunities once passed never return.

There Are Opportunities Remaining, However!

So let us be watchful, and catch and use them as they come. Among them, rare and valuable, now being presented for acceptance, is that of being able to buy Shoes from our closing sale of the quality and at the prices offering for a short time only. The stock is new, the leathers the best, the styles the latest, and right from the factories where they were made to our order. It will pay you to anticipate your wants and "lay up" for the future, otherwise you may write a "lost opportunity." Come to the assignee's sale of

REGRET HIS DEPARTURE.

Maysville Commandery No. 89, Knights of St. John, Adopts Resolutions on Father Ennis' Departure.

At the meeting of Maysville Commandery No. 89, Knights of St. John, April 2nd, 1901, the following resolutions were adopted:

WHEREAS, it has become known to this commandery that our pastor and spiritual adviser, the Rev. Father Ennis, is about to sever his connection with our congregation in this city and will soon depart for his former home in Italy.

WHEREAS, by his so doing this commandery loses one of its honored officers, the congregation an ardent worker in the cause of our church and the city one of its esteemed and valued citizens.

Be it therefore resolved, That this commandery extend to our Rev. Father Ennis our sincere regrets at his departure from among us and at the same time our wishes that his return to his former home will be a safe and pleasant voyage, and for his entire restoration to health, so as to prolong his good work among our brethren.

Resolved, That these resolutions be entered on the records of this commandery and a copy be delivered to Father Ennis and also published in the city papers.

"Enoch Arden" scores a hit! Recital at the St. Nicholas proves an artistic success. As an interpreter of this story of love and suffering Miss Curtis excelled and the sympathetic cadence of her perfectly modulated voice brought before her audience a vision of the simple fisher folk. The instantly recurring themes in mournful minor strains of the piano blended with the readers voice until it was as if one heard the sob of the sea. George Kruger, the pianist, was in full accord with the sentiment of the poem, never giving undue prominence to the piano part.—Commercial Tribune.

A Tribute to the Late William Wormald.
The rector and vestry of the Church of the Nativity, Maysville, Ky., desire to put upon record their profound sorrow on account of the death of William Wormald, for more than thirty years Senior Warden of the parish and for many years Superintendent of the Sunday school. He came of an English family, and had the Englishman's strong devotion to the church. To him her services were privileges, not simply duties. His religion was one that lasted between Sundays. He was especially a good man; good without pretense. He generously gave of his substance to the sacred cause. He was faithful to every trust the church committed to him. In his last illness his greatest solace was found in the sublime virtues of the Christian faith. To him death is but the gateway to larger life. We treasure his good name. We praise God for his good example. We trust to clasp his honest hand again in the realm of eternal reunion.
We extend to his family our deep sympathy in their great affliction, and order that a copy of these resolutions be printed in the "Diocesan News" and also in the daily papers of Maysville, and that a page be reserved for a memorial in the records of the vestry. By the vestry.
REV. AUGUSTIN J. SMITH, Committee.

Fence Made From Saw.

"Fencing a farm with steel is somewhat of a novelty," said a Washington woman, "but during a recent trip to Nelson County, Va., I saw a 15 acre farm which was thoroughly fenced with steel bands. At Schuyler the finest soapstone which is found in the country is very extensively mined, the owners of the quarries being, I am informed, residents of this city. The stone is not only quarried, but is cut there into all kinds of shapes, in which form it is shipped to all parts of the United States. A large number of saws are kept constantly going, sawing out stone. These saws are bands of steel 15 feet long and about 6 inches in width.
"About 20 saws are worn out each day, and when they are fixed up to stone posts they make the finest and most indestructible fences I ever saw. It would be out of the question to put up such fences as an original investment, but it is found to be much cheaper to use the worn-out saws for fence rails than to ship them back to the steel mills."—Washington Star.

Questions for Women

Do you have periodical pains? Do you have frequent backaches? Are you nervous? Are you continually exhausted? Do you suffer every month? If you answer "yes" to any of these questions you are suffering from ills which Wine of Cardui cures. Do you appreciate what perfect health would be to you? After taking Wine of Cardui, thousands like you have realized it. Wine of Cardui insures freedom from female diseases. At each recurring menstrual period, if care be not taken, slight ailments will appear. Nervous strain, loss of sleep, cold or indigestion start disorders which are not noticeable at first, but day by day steadily grow into troublesome complications. Wine of Cardui, used just before the menstrual period, will keep the female system in perfect condition and render it invulnerable to disease. The medicine is taken quietly at home. There is nothing like it to help women enjoy good health. Wine of Cardui costs only \$1. Test this remedy, which is endorsed by 1,000,000 cured women.

WINE OF CARDUI

Cairo, Ky., Sept. 6, 1899.

I take pleasure in writing a few lines in praise of your wonderful medicine, Wine of Cardui. It is the best medicine I ever heard of. I am thirty-six years old and have been sick all my life. I had a dozen doctors, but none of them did me any good. I have taken one bottle of Wine of Cardui and will take another with Black-Draught. I have been married six years and have a baby five years old. I had womb and kidney trouble. My monthly period was so bad that sometimes it came twice a month. I was too sick to do work for a family of three. I was in bed when I got the bottle of Wine of Cardui. Now I am up and can do most of my work. When I was sick I could not sleep at night. I sleep well at night now. A friend of mine advised me to use Black-Draught with Wine of Cardui.
